

I paid alot of money for my service and equipment not for you to take it away, but for my pleasure and use. People "FCC", You cant just wake up and have a burr up your ass, you have to realize people depend on xm radiop for alot of things, you are just like the other government agencies and officials, you don't care about the working class people, or their families, you shi=ould be trying to find perverts raping and obducting childern on the internet and leave our radios, FM, AM, XM the hell alone....Thank you,
Chuck Carouthers
